Milkeffekt

Production of traditional
steamed cheeses
and cheese delicacies
from
the Beskydy mountains.

Dear business partners,

MILKEFFEKT, a.s. is purely **Czech company** from Třinec. We are engaged in the production of **traditional cheese specialties**. We draw inspiration from the traditions of the Beskydy mountaineers, influenced by their life in a unique place on the tri-border of Slovakia, Poland and the Czech Republic. Our products are unrivalled in quality and care thanks to their unique recipes and a large proportion of manual work.

Since 2009, our company has **held the IFS /International Food Standard/ certificate**. In the annual audit, we defend the highest possible HIGH LEVEL.

Our products are divided into the three categories.

The first of these are the traditional types of steamed cheese known as **KORBÁČIKY, PAŘENICE, CHEESE THREADS, FARUKA CHEESE, BRAIDS, STICKS...**

The second category is **JÁNOŠÍK'S OŠTĚPEK**, which is a cheese intended mainly for grilling, baking and roasting. By cooking, this cheese turns into a perfect delicacy. We recommend serving it with cranberry jam and fresh bread.

The third category are types of **MARINATED CHEESE**. They are made from different types of cheese marinated in rapeseed oil with selected spices, ram's horn peppers, olives and hot peppers. For marinating we use special and time-tested recipes and our own blended spices. Our products are of high quality and have a perfect delicious taste.

Our products are becoming increasingly popular with customers, as evidenced by the various awards our company has received. These successes are mainly due to our employees, who contribute to the quality of our products with their enthusiasm, dedication and precision. The company employs about 100 employees, mostly women. Production is focused on processing fresh cheese, of which we process more than 60 tons per month. We use the highest quality raw materials from proven suppliers to maintain a high standard of quality.
